Advanced G/L Integration

Projects is a job costing solution for Sage ERP Accpac that allows you to take control of your projects.

A Sage ERP Accpac module written in the SDK, Projects is fully integrated to G/L, A/P, A/R, P/O, I/C, O/E and extends the powerful Sage CRM.

Projects provides a comprehensive set of features for the capture and reporting of revenue and cost for all types of projects.

Visit Enabling IP in booth X to discover how Projects can help you win new business.
